YOUTH MINISTRIES

# BRINGING HOPE THIS HOLIDAY SEASON

## ASLAN YOUTH MINISTRIES

[WWW.ASLANYOUTH.ORG](http://WWW.ASLANYOUTH.ORG)

Tutoring programs at Aslan help children overcome their academic deficits. All of our tutors are volunteers who go through a rigorous training process and are paired with an Aslan child. At Aslan, we know that developing a bond with a caring adult is one of the most impactful ways to reach our children.

The Right Choices program teaches children life skills and values that help them learn the importance of service and leadership. Riddled with the long-term effects of poverty and trauma, many inner city communities are filled with children making wrong choices. We help them make right choices.

We pack so much fun and learning into our summer day camps such as field trips to the beach or at programs provided through the Monmouth County Park System. Aslan children participate in arts & crafts, sports, and classes in music, science, computers and other enrichment activities. Local churches provide a nutritious lunch for each child! We also sponsor children to attend a 1-week residential camp.

## Aslan In Haiti

Aslan's work in Haiti has grown dramatically since our first trip there in 1996. We now own six (6) acres of land, on which we have built a modern medical clinic. We are nearing completion of a worship center, and our plan for 2019 is to begin construction of a school for the many children in our area who are unable to afford proper schooling. We are also raising funds to expand our clinic to include a new surgical suite, where we can finally replace the regular exam table used for surgeries.

## Beauty and the Beach | John Reid Memorial Golf Classic | Island Nights

Aslan Youth Ministries host three major fundraisers where sponsors, volunteers and athletes can come together and participate in competitions while raising money for their favorite cause. These fundraisers are one of our most significant sources of funds.
